University for Peace established by the United Nations

7 March 2025

The European Center for Peace and Development University for Peace established by the United Nations (ECPD) - Regional Mediterranean Institute for International Postgraduate Studies and Development Research, in the framework of the ECPD International Program of Transfer of Knowledge System, in cooperation with the University of Berlin (Germany), VAMK University (Finland), Long Island University (USA), Istituto Superiore di Sanità (Italy), South-Eastern Europe Health Network (SEEHN), World Heart Federation (WHF), European Association for Cardiovascular Prevention and Rehabilitation (EACPR) and ECPD International Center for Integrative Medicine, organizes

XVI ECPD INTERNATIONAL SUMMER SCHOOL ON CARDIOVASCULAR DISEASES with the main topic

PREVENTION, DETECTION AND MANAGEMENT OF CARDIOVASCULAR DISEASES

(Hotel "Mediterran" – Budva, 18 – 21 June 2025)

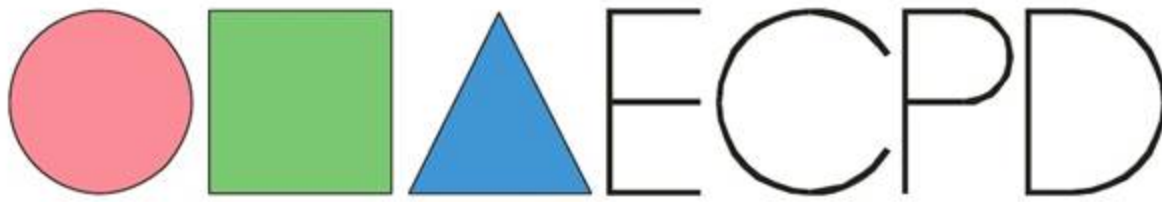

We are pleased to invite you to participate in the work of the **XVI ECPD International Summer School on Cardiovascular Diseases**, which ECPD traditionally organizes with the aim to advance the knowledge of primary care providers, specialists in cardiology and other specialties in the latest scientific and technological developments, as well as guidelines for prevention and treatment of cardiovascular diseases. The program will focus on the latest research, technological advances and case study reviews as well as discussions on the guidelines and latest treatment options regarding prevention, early detection and management of cardiovascular diseases. The School is intended for primary health care doctors and specialists (cardiologists, endocrinologists, internists, pediatricians, etc.).

President of the School Council is **Academician Prof. Dr. Vladimir Kanjuh**, SASA, Belgrade, **Director** of the School is **Academician Prof. Dr. Nathan D. Wong**, University of California, USA, and **Co-Directors** are **Prof. Dr. Ian Graham**, Trinity College, Ireland, **Academician Prof. Dr. Miodrag Ostojić**, SASA, Belgrade, **Academician Prof. Dr. Milan Nedeljković**, President of the Serbian Medical Association, Faculty of Medicine, Belgrade, and **Academician Prof. Dr. Duško Vulić**, University of Banja Luka.

The Program is internationally and nationally accredited. By the Health Council of Serbia, the Program is accredited as an International seminar of the 1st category with 14 points for lecturers and 7 points for participants. Accreditation number is A-1-290/25.

The necessity and justification for this education is confirmed by fact that despite the guidelines for the treatment of acute coronary syndromes, heart failure, atrial fibrillation and prevention of cardiovascular diseases, many patients, especially in the South-East European region remain inadequately treated for risk factors, acute coronary syndromes, heart failure, or atrial fibrillation and adherence to treatments is not optimal. Latest surveys from EUROASPIRE III and EUROASPIRE IV show that many patients with pre-existing coronary artery disease are not on recommended therapies and treatment patterns vary considerably between regions, even within a limited geographic region such as the South-East European (SEE). Data often show that while treatment of individual risk factors may be adequate, combined treatment and goal attainment for multiple risk factors, such as LDL-C, blood pressure and A1C levels together with diabetes is often insufficient, requiring implementation of systemic efforts addressed to all required risk factors both in primary and secondary prevention.

PRELIMINARY PROGRAM

The **Program** of the School will cover the following topics:

- **Morphologic – Clinical Correlations in Cardiology (Educational quiz – An interactive prize – winning competition of the School's participants)**
- **New US Guidelines for Cardiovascular Disease Prevention**
- **European Guidelines for Cardiovascular Disease Prevention**
- **Strategies for Optimal CVD Risk Reduction in Diabetes**

University for Peace established by the United Nations

5 March 2025

The European Center for Peace and Development University for Peace established by the United Nations (ECPD) - Regional Mediterranean Institute for International Postgraduate Studies and Development Research, in the framework of the ECPD International Program of Transfer of Knowledge System, in cooperation with the University of Berlin (Germany), Long Island University (USA), VAMK University (Finland), Istituto Superiore di Sanità (Italy), University of Applied Sciences Niederrhein, Germany and South-Eastern Europe Health Network (SEEHN), organizes

**XXX ECPD INTERNATIONAL SUMMER SCHOOL
MANAGEMENT OF HEALTHCARE INSTITUTIONS
with the main topic**

**PROFESSIONAL MANAGEMENT – THE KEY TO
SUSTAINABILITY OF HEALTHCARE**

(Hotel “Splendid” – Budva, 18 - 21 June 2025)

We have the pleasure to invite you to take part in the work of the **30th ECPD International Summer School of Management of Health Care Institutions** (hereinafter: School), devoted to a highly topical issue: **Professional Management – the Key to Sustainability of Healthcare**. This year's ECPD International Summer School continues with current topics in the field of health management and extends the tradition of gathering health managers and other decision makers in health care systems from the region of South-East and Central Europe.

The Program is internationally and nationally accredited. By the Health Council of Serbia, the Program is accredited as an International Seminar of the 1st Category with 14 points for lecturers and 7 points for participants. Accreditation number is A-1-291/25.

Significant changes in the field of medical science and technology in general, as well as the new models of management of that knowledge and systems, require shifts in healthcare practice from the previous inert models to dynamic, applicable models of practical health preservation, better treatment outcomes, and the greater satisfaction of patients.

One of the goals of this year's School is to analyze the inertness of the current management models of both preclinical and clinical practice, from the aspect of system solutions, and to look at the opportunities provided by the development and implementation of digital technology in healthcare, artificial intelligence, genetic engineering and molecular biology, as well as personalized pharmacology, and to see through their own innovative and creative models the possibilities of implementing changes at the level of micro and macro systems.

Changed or newly created standards remain as a necessary helper along the way, which, when accepted and implemented, facilitate the management of units and systems, and give the desired result. Accordingly, one of the leading topics of the Program will be the topic of health standards and accreditation, as well as their indirect impact on health insurance and the cost of health care.

Co-Directors of this year's ECPD International Summer School are **Prof. Dr. Klaus-Dirk Henke**, Department of Health Economics and Health Management, University of Berlin, **Prof. Dr. Tina Bregant**, Angela Boškin Faculty of Health Care, former State Secretary at the Ministry of Health of Slovenia, **Prof. Dr. Lisbeth Fagerström**, Rector of Åbo Academy University in Vaasa, Finland, **Prof. Dr. Luca Rosi**, Istituto Superiore di Sanità, Italy, **Prof. Dr. Miodrag Todorović**, CEO of "Panafricare" Clinic and long-standing Director of the Seychelles Ministry of Health, **Prof. Dr. Miodrag Ivanović**, long-standing Professor at several Universities in Great Britain and Professor of the ECPD UN University for Peace and **Prof. Dr. Farhang Tahzib**, Director of Public Health & Wellbeing, West Sussex Primary Care Trust, England.

Program

The main topics of the Program include the following:

- **Leadership in the field of healthcare - basic concepts and practical aspects**
- **Necessity of continuous transformation of health systems in order to sustain the quality of health care**
- **How to increase efficiency in healthcare system management**
- **Existing and new ways of financing health care**
- **Sustainability in hospitals - economic aspects based on selected case studies**
- **Innovations as a lever for the sustainability of the healthcare system**
- **Quality management: a comparative analysis of the work of state and private healthcare institutions**
- **The role of public-private partnerships in the efficient management of healthcare systems**
- **Emergency response and risk management in healthcare**
- **The future of healthcare after the crisis - Efficiency as an imperative in healthcare**
- **Digital transformation of the health sector**
- **Integration of e-Health software with existing local information systems**
- **The impact of digitalization and artificial intelligence on the healthcare sector and management optimization** and other current topics

As part of the school Program, thematic **Workshops** will be organized, focused on the analysis of comparative experiences of countries in the region in dealing with certain current issues.
